

## LEVEL 1

*Minimising Risk*

### SCREEN

Each patient/visitor is temperature checked and covid screened upon entry.

### CLEAN

Each patient/visitor is required to wash/sanitise hands upon entry.

---  
Each patient is required to perform a pre-procedural mouth wash before commencing.

---  
Additional clean & disinfection of treatment room between patients.

### LIMIT

Number of patients/visitors in building reduced as much as possible.

---  
Appointment availability reduced to accommodate social distancing requirements as well as additional wait time required between appointments for disinfecting procedures.

## LEVEL 2

*Limiting Risk*

### DELAY

ESSENTIAL APPOINTMENTS ONLY.

Procedures that are non-urgent and can be delayed will be placed on recall and seen when level 1 resumes.

### RESTRICT

Level 2 prevents us from performing any procedure that produces aerosols by using the drill/air/water.

This means we cannot:  
**REPAIR**  
brackets/attachments/  
retainer wires  
**PLACE**  
brackets/attachments/  
retainer wires  
**REMOVE**  
brackets/attachments/  
retainer wires

## LEVEL 3

*Preventing Risk*

### CLOSED

ORTHODONTICS CONSIDERED NON ESSENTIAL.

Level 3 prevents us from performing ALL procedures.

We are closed for patients and appointments, however we continue to work digitally behind closed doors to maintain email enquiries and Dental Monitoring and patient communication.
